

Card Catalog 1971–1977 Index

Description

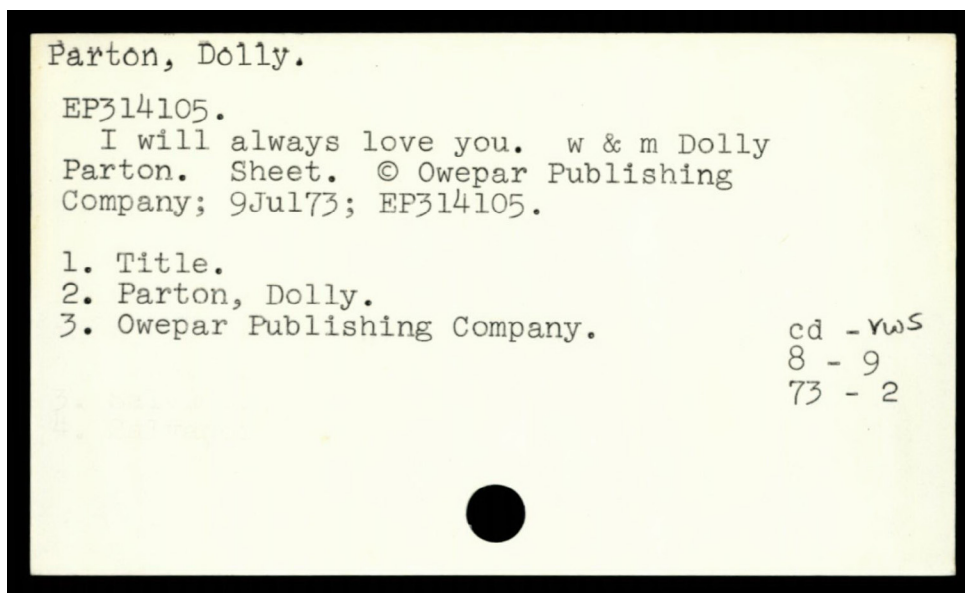

The 1971–1977 index covers copyright registrations for all classes of works made within this time period. Generally, there are three (or more) catalog cards for each work registered: title of the work, one card for each author, and one card for each claimant.

Card Layouts in the Copyright Card Catalog

Cards in the copyright card catalog are alphabetized by a **header**. A header can be the **author** and/or **claimant**, **title**, and sometimes **content** of a registration. This means often times there will be several cards for one registration number. Below is an example of a registration with four cards in the card catalog: an author card, title card, claimant card, and content card. The items at the right illustrate the different fields that make up that card.
