

Name: Jim Cronin

Class of works: I am writing in support of Class #2 (DVD Region Coding):
Audiovisual works stored on Digital Versatile Disks ("DVDs") that are not
available in Region 1 DVD format and access to which is prevented by
technological measures.

Summary:

Disc name: Eraserhead

Eraserhead is available on DVD all around the world. The DVD can be purchased
abroad and brought into the U.S., but does not work on U.S.

(Region 1) DVD players. It does work on "region free" DVD players, which the
MPAA seeks to ban. This is a barrier to free trade. It is similar to buying a
book in England and not being allowed to read it in the United States.
