

1. I support all jailbreaking exemptions.
2. I am a hobbyist
3. I mostly play with jailbreaking my iphone to allow it to do the things that I need it to do – things which Apple does not allow.
4. Jailbreaking my devices simply allows me to use them for the purpose that I purchased them for. If companies can prevent jailbreaking, then their devices will be of limited use and devices which have already been purchased will no longer be of use for many consumers. I should be able to do with my device as I see fit.
