I am supporting the jailbreaking of smartphones/tablets

I am a user and an ios developer

These are the following devices that I would like to be able to jailbreak: iPhone, iPod, iPad

Making Jailbreak illegal is like making the internet illegal on a computer. I own an iPhone 4S and iPad 2 and I believe people should be able

to do whatever they want with their electronic devices (personal devices) unless it is illegal, like getting things they should pay for, for free.

If I do not jailbreak, I would lose my quick messaging, customization of my device to its full extent, using a better GUI,

being able to manage what I use, use Siri with awesome commands, and be able to secure my device.
