

I believe that the Government should do a complete Analysis upon the Human Rights which was Amended many years ago upon the necessities of our needs.  
And I believe that un-harming processes should not be persecuted and JAILBREAKING is nothing But a Cosmetic way of a Property, for example if I 'am the owner of a car and want to change the Looks of it is no law that can stop me because I 'am not doing it in somebody else's Property and As long as is mine I have the choice of doing with it what I want because IS MY PROPERTY no braking Of law can be implanted upon my doings if it is then I can't eat what I want to eat, drink what I want to Drink without the concession of the law.
