

Hello I have owned every iPhone to date: the iPhone, the iPhone 3g, a iPhone 3gs, a iPhone 4 & I purchased the iPhone 4s the 2nd day it came out. Why do I buy all the phones you might ask well the reason I buy iPhones is because I can jailbreak it & personalize it. I wouldn't want to have it another way! As I got in to it threw out the years I've seen the community grow & seen the hard work of many men & women in developer teams. Time & time again they spend days working on "jailbreaks" with out financial support & they always work within the context of the law.. I remember reading a report from one gentleman stating that they have found a jailbreak but could not distribute it with out violating apples agreement terms.. So they worked even harder to bring it to the masses in a legal way! Please support creativity personality & hard work and progress: allow us to continue "jailbreaking".

Thank You,

Ricky Reyes
