Specialty Station List) Docket No. 2011-1

OBJECTIONS OF PROGRAM SUPPLIERS

The Motion Picture Association of America, Inc. ("MPAA"), its member companies and other producers and/or syndicators of syndicated movies, series, and specials broadcast by television stations ("Program Suppliers"), in accordance with the procedure set forth in the *Notice of Specialty Station Filing*, 76 FR 22733 (April 22, 2011) ("Notice"), submit their objections to inclusion of certain stations' being listed as specialty stations in the Notice. Program Suppliers submit that each station identified below does *not* contain "programming [that] comports with the 1981 FCC definition," of specialty station, 76 FR at 22734, and hence, cannot qualify as a specialty station. In the same way that the Register can refuse registration under 17 U.S.C. § 411(b)(1), Program Suppliers request that the Register refuse identification of these stations on the specialty station list. In support of their objections, Program Suppliers state:

1. Two stations included on the Office's proposed list (76 FR at 22734) – WBQD-LP, Davenport, IA and WNYA-CA, Albany, NY – identify themselves as MyNetworkTV stations that offer a full daily schedule of syndicated programming, including during prime time, as shown in the Attachment A, which includes weekly program listings for the two stations. Broadcast of the programming identified in those listings would not satisfy the FCC's former requirements for specialty station status. Accordingly, these two stations cannot be identified as specialty stations on the Copyright Office's proposed list.

2. One station included on the Office's proposed list (76 FR at 22734) – K241C-D, Bellingham, WA – is a translator that carries the multicast signals of KBTC, Bellingham, WA to

Vancouver, BC. KBTC is a public television station that is affiliated with the Public Broadcasting Service. As shown on Attachment B, which has weekly program listings for the two stations, K241C-D offers the same programs at the same times that they are broadcast by KBTC. Broadcast of the programming identified in the program listings would not satisfy the FCC's former requirements for specialty station status. Accordingly, K241C-D cannot be identified as a specialty station on the Copyright Office's proposed list.

3. Two stations included on the Office's proposed list (76 FR at 22734) – KBCB-TV, Bellingham, WA and KHTV-LP, Los Angeles, CA– are Home Shopping Network (“HSN”) affiliated stations. As shown on Attachment C, which weekly program listings for the two stations, they offer home shopping programs throughout each day, including during prime time. Another station included on the Office's proposed list – WNJJ-LD, Paterson, NJ – appears to broadcast only infomercials, as indicated on the information sheet included in Attachment C. Broadcast of HSN programming or infomercials throughout the day would not satisfy the FCC's former requirements for specialty station status. Accordingly, KBCB-TV, KHTV-LP, and WNJJ-LD cannot be identified as specialty stations on the Copyright Office's proposed list.

4. At least ten stations included on the Office's proposed list (76 FR at 22734) – KDBK-LP, Caliente, CA, KEBK-LP, Bakersfield, CA, KFIQ-LP, Lubbock, TX, KILA-LP, Cherry Valley, CA, KMRZ-LP, Moreno Valley, CA, KRMV-LP, Walnut, CA, KRPE-LP, Banning, CA, KRVD-LP, Banning, CA KSCZ-LP, Greenfield, CA, and KSGO-LP, Chico, CA – are currently in a “licensed and silent” status. As the FCC forms included in Attachment D show, KILA-LP, KRMV-LP, and KSCZ-LP have requested silent station status, KDBK-LP, KFIQ-LP, KMRZ-LP, and KRPE-LP notified the FCC of suspension of operation and requested silent station status, KRVD-LP notified the FCC of suspension of operation, and KSGO-LP sought to extend authority to remain silent. We could find nothing to indicate that the stations have sought to resume operations since the dates in 2010 and 2011 when they sought licensed and silent status. As these stations currently are silent, they

do not broadcast programming that would satisfy the FCC's former requirements for specialty station status. Accordingly, KDBK-LP, KEBK-LP, KFIQ-LP, KILA-LP, KMRZ-LP, KRMV-LP, KRPE-LP, KRVD-LP, KSCZ-LP¹, and KSGO-LP cannot be identified as specialty stations on the Copyright Office's proposed list.

5. Another "licensed and silent" station included on the Office's proposed list (76 FR at 22734) – WOX-LP, Cleveland, OH – went off the air in 2009 and appears still to be off the air pending FCC action, according to the "Engineering STA" filed by the station with the FCC and included in Attachment E. WOX was granted special temporary authority to operate in 2010, but that authority expired April 20, 2011. In any event, the station currently is off the air, and does not broadcast programming that would satisfy the FCC's former requirements for specialty station status. Accordingly, WOX-LP cannot be identified as a specialty station on the Copyright Office's proposed list.

6. Three stations included on the Office's proposed list (76 FR at 22734) – WPRU-LP, Aguadilla, PR, WSJX-LP, Aguadilla, PR, and WVXF(TV), Charlotte Amalie, USVI – offer either network or independent programming. As shown in Attachment F, which includes program listings for the stations: WPRU is an ABC affiliate; WSJX is a Fox affiliate; and WVXF broadcasts syndicated programming throughout the day. All three stations offer all their programs in English. Broadcast of the programming identified in the program listings of these stations would not satisfy the FCC's former requirements for specialty station status. Accordingly, WPRU-LP, WSJX-LP, and WVXF(TV) cannot be identified as specialty stations on the Copyright Office's proposed list.

7. Two stations included on the Office's proposed list (76 FR at 22734) – KFMP-LP, Lubbock, TX and WLFM-LP, Chicago, IL – offer a radio programming format, as shown on the

¹ KSCZ-LP in 2007 sought to construct a companion digital station, KSCZ-LD, but this companion station has yet to be constructed. *See* attached FCC Application for Extension of Time To Construct filed February 25, 2011 (Exhibit 1 states various issues "have delayed the construction" of KSCZ-LD and "requests a six-month extension of its deadline to complete construction").

documents included in Attachment G. KFMP offers an alternative rock music format along with talk shows. WLFM offers a smooth jazz music format with talk shows. Broadcast of a this type of radio format programming would not satisfy the FCC's former requirements for specialty station status. Accordingly, KFMP-LP and WLFM-LP cannot be identified as specialty stations on the Copyright Office's proposed list.

8. Nine stations included on the Office's proposed list (76 FR at 22734) have as their city of license Port Jervis, NY – W20CM, W26DB, W34DI, W42CX, W46DQ, W49DK, W52DW, and W59EA. Although there are applications for low power tv, tv translator or tv booster station licenses on file with the FCC for these call signs, we can find no evidence that the stations have been constructed or, if they have been, what type of programming they broadcast. If, indeed, the stations have not been constructed, then they do not broadcast programming that would satisfy the FCC's former requirements for specialty station status. Accordingly, W20CM, W26DB, W34DI, W42CX, W46DQ, W49DK, W52DW cannot be identified as specialty stations on the Copyright Office's proposed list.

The Register may refuse registration under 17 U.S.C. § 411(b)(1) if the inaccurate information was included on the application for copyright registration with knowledge that it was inaccurate; and the inaccuracy of the information, if known, would have caused the Register of Copyrights to refuse registration. The same principles should apply here to deny special station listing to the above-identified stations. In many cases, the same person who signed the FCC applications requesting, for example, silent status, was also the person who signed the affidavit in support of the requested inclusion on the Office's specialty station list. In other cases where the issue is whether the station broadcasts programming that would have met the FCC former specialty station status, the affiants must have known for example, that a MyNetworkTV station broadcasting syndicated programming throughout the day would not qualify as a specialty station

under the former FCC rules. Such affidavits contravene the standards set out in § 411(b)(1). As the Register now has accurate information regarding the stations, it should be evident that the above-identified stations would not qualify as specialty stations under the former FCC rules, and, therefore, the Register should refuse to include them on the list.

Respectfully submitted,

Description
EXHIBIT 1

EXHIBIT 1

Venture Technologies Group, LLC (“VTG”), licensee of KSCZ-LP, Greenfield, CA (Facility ID 68091), respectfully requests an extension of time to complete construction of its digital facility as authorized in BDCCDTL-20070418AAO. The construction permit for KSCZ-LP’s digital companion channel facility KSCZ-LD on channel 20, Greenfield, CA (Facility ID 167279) (the “DCC Facility”), was extended in September 2010 and is set to expire on April 11, 2011.

In the Report and Order on the Amendment of Parts 73 and 74 of the Commission’s Rules¹, the Commission adopted procedures that would allow a low power television station experiencing a delay in construction or financial hardship to seek an extension of its digital construction permit. The Commission further delegated to the Media Bureau the authority to grant up to two extensions (of six month each) of the digital construction deadline. This filing represents VTG’s second request for a six month extension of time.

VTG has been devoting its resources on the digital transition of the DCC Facility and its other facilities and is dealing with scheduling, equipment ordering, site negotiation and budgetary constraints all at the same time. These issues have delayed the construction of the DCC Facility. To better facilitate the construction and operation of the multiple facilities it owns, VTG respectfully requests a six-month extension of its deadline to complete construction of the DCC facility to allow VTG the necessary time to coordinate and address the on-going funding, equipment, and site issues related to the conversion.

Description: EXTRAORDINARY CIRCUMSTANCES

WXOX-LP (STATION) HAS BEEN OPERATING ON CHANNEL 65 FOR MORE THAN 10 YEARS SINCE IT WAS BUILT IN 1999. HOWEVER, CHANNEL 65 HAS BEEN AUCTIONED OFF TO VERIZON WIRELESS AND WXOX-LP HAD HAD TO VACATE THE 700 MHZ SPECTRUM.

AS A DISPLACEMENT RELIEF, THE LICENSEE OF WXOX-LP FILED BDISDTL-20081219AFM TO MOVE THE STATION TO DIGITAL CHANNEL 31 IN SEVEN HILLS, OHIO ON DECEMBER 19, 2008. HOWEVER, BECAUSE IT REQUIRES CANADIAN CONCURRENCE, THE APPLICATION REMAINS PENDING IN THE CDBS UNTIL RECENTLY WHEN THE COMMISSION DISMISSED IT ON SEPTEMBER 10, 2010.

ANOTHER DISPLACEMENT APPLICATION WAS FILED ON APRIL 8, 2010 TO MOVE WXOX-LP TO ANALOG CHANNEL 6 IN CLEVELAND, OHIO. SEE FCC FILE NO. BDISTVL-20100408ACE. THIS APPLICATION REMAINS PENDING IN THE CDBS AS OF THIS DATE.

THE STATION WENT OFF THE AIR ON OCTOBER 27, 2009 PURSUANT TO BLSTA-20091110AED AND WILL HAVE BEEN SILENT FOR A YEAR ON OCTOBER 27, 2010 WHEN THE SILENT AUTHORITY EXPIRES. THEREFORE, THE LICENSEE PROPOSES TO OPERATE THE STATION PURSUANT TO THE TECHNICAL PARAMETERS SPECIFIED HEREIN THIS STA REQUEST UNTIL THE COMMISSION GRANTS THE PENDING DISPLACEMENT RELIEF ON CHANNEL 6. THE PROPOSED STA FACILITY IS COMPLETELY WITHIN THE COVERAGE CONTOUR OF THE LICENSED FACILITY OF WXOX-LP ON CHANNEL 65. THE PROPOSED TOWER WILL BE LESS THAN 6 METERS ABOVE THE TOP OF THE BUILDING.

THE BACHELORETTE - PREMIERES MONDAY, MAY 23

Ashley Hebert, 26, couldn't admit she was in love with Brad Womack - and it might have cost her the final rose - but that's all in the past. The energetic and vivacious Hebert, who is ready to start a new life with a soul mate she might soon meet, will get a second chance at love when she stars in the seventh edition of "The Bachelorette."

Hosted by Chris Harrison, "The Bachelorette" is produced by Next Entertainment in association with Warner Horizon Television. Mike Fleiss and Martin Hilton are the executive producers. *The Bachelorette* premieres Monday May 23, 9-11:00pm ET, and moves to its regular time slot 8-10:00pm ET on Monday, May 30)

Did You Know?

KFMP is a TV station you can hear on the radio. We're a channel 6 TV station, but you can hear us on the radio because the sound from channel 6 comes in at 87.7 on FM radios.

About KFMP

Channel 87.7, Lubbock's only entertainment alternative strives to be just that: a television, radio and web entertainment hub.

More than just great music. More than just entertaining talk. More than just videos. More than just a meeting place. All of the above, and more.

Think of it as a virtual hang out. Getting together with your friends for some drinks, great conversation, good tunes and an overall good time.

Right now, it's a vision. But soon, with your help we can make this happen.

We welcome your input, your feedback, your ideas. We welcome you.

So please keep coming back, mention the station to your friends. And in time, watch this vision grow into something we can all be proud of. And more importantly, something we can all enjoy.

Dick & Skibba

KFMP's flagship program "Dick & Skibba" has a free-form format featuring the irreverent observations of its hosts Dick and Skibba.

Before getting their own show, Dick and Skibba had extensive experience in the radio industry.

Dick was a producer and writer for the Frosty, Heidi & Frank show in Los Angeles, and a former standup comedian.

Before coming to KFMP Dick & Skibba worked in Los Angeles, New York, and San Diego.
