1

TITLE

Please give the make and model of the vessel that embodies the design.

Delta Project Number 156036

2

DESIGN

Check here if this is a single design.

Check here if registering more than one design. Use Form D-VH/CON for additional designs.

(a)

What is the type or style of the design for which registration is sought?

156' LOA tri-deck pleasure yacht with twin diesel/screw propulsion, and a semi displacement hull form

(b)

Provide a brief general statement setting forth the salient features of the design.

Exterior Description: A tri-deck configuration, with aft machinery space and fishing cockpit in a semi displacement, shallow draft hull with partial propeller tunnels, raked and flared bow with upper spray chine and rounded forward underbody that forms a transition to a chined underbody aft of amidships, and a straight buttock run with variable deadrise.

(c)

If this design is derived from an earlier design, describe how that design has been revised, adapted, or rearranged.

The basic hull form was originally developed for a prior 147' tri-deck pleasure yacht. The current design represents a lengthened hull design with a new sheer line. In addition, the deck house and superstructure constitute a wholly new design.

3

DESIGNER(S)

Provide the name and address of the designer(s). The name of the employer may be given instead of the designer(s) if, (1) the design was made within the regular scope of employment of the designer(s) and (2) the individual authorship of the design is difficult or impossible to ascribe.

Please check here if those conditions are satisfied and you are providing the employer's name.

Name: Delta Marine Industries, Inc.

Name: _____

Address: 1608 S. 96th Street
Seattle, WA 98108

Address: _____

4

OWNER, IF NOT DESIGNER(S)

If the owner is different from the designer(s) or employer named above, provide the name and address of the owner:

Name: _____

Address: _____

5

PRIORITY CLAIM

(a)

Was an application for registration of this design identified in an application filed in a foreign country that extends to designs of owners who are citizens of the United States, or to persons filing applications in the United States, similar protection to that afforded in 17 USC chapter 13?

Yes No

(b)

If yes, identify the country and date of application:

Country: _____

Date of application: _____

Serial No: _____

6

DATE MADE PUBLIC

Was this design made public before the date of application? Yes No

If yes, on what date? August

CERTIFICATION AND
SWORN STATEMENTS

DECLARATION: The undersigned, as the applicant or the applicant's duly appointed agent or representative, being hereby warned that willful false statements are punishable by fine or imprisonment, or both, under 18 USC §1001, and that such willful false statements may jeopardize the validity of this application or any resulting registration, hereby declares to the best of his or her knowledge and belief:

- (1) that the design has been fixed in a useful article;
- (2) that the design is original and was created by the designer(s), or employer if applicable, named in the application;
- (3) that those aspects of the design for which registration is sought are not protected by a design patent;
- (4) that the design has not previously been registered on behalf of the applicant or applicant's predecessor in title; and
- (5) that the applicant is the person entitled to protection and to registration under chapter 13 of title 17, *United States Code*.

Complete if applicable:

The design has been made public with a design notice as prescribed by 17 USC §1306.

Following is the exact form of the design notice:

Where on the useful article is the design notice located?

If the undersigned is not the applicant, he or she is properly authorized to execute this application on behalf of the applicant.

Continuation of Space 2

(2a) What is the type or style of the design for which registration is sought?

(2b) Provide a brief general statement setting forth the salient features of the design.

External deeply set elliptical shaped portholes in hull side to provide natural light to crew and guest areas. Bulwark freeing ports with similar elliptically shaped ends. Forward hull windows in stylized bullet shape with dark painted mullions to create a singular design element. Perimeter of window element connects to hull surface in a beveled perimeter transition. Forward coachroof and top of bulwark join just forward of the hull window to create a deep set crease that "enters" the bullet shaped window element at the leading end and emerges from the trailing end to form a split fashion plate. Another deep set crease begins above the hull window element and carries aft and across the back

(2c) If this design is derived from an earlier design, explain how that design has been revised, adapted, or rearranged.

of the upper deck bulwark. Engine room air inlets set in beveled perimeter with oval section polished stainless steel longitudinal grille work. Upper and lower aft fashion plates with similar style curved and sloped profile shapes with stepped surfaces with beveled and inset leading and lowed edges. Deckhouse sides on main and upper level have single window elements with rectangular shape and rounded corners. Windows in main saloon have sill heights hidden below the bulwark line. Forward pilothouse windows with sloped front and declining slope on side windows transition to slight tumblehome aft of port and starboard pilothouse doors. Upper coach roof forming top of pilothouse is a

surface joined to bulwark fairing around perimeter of sun deck. Leading edge and planform of upper and lower fairing in same family of curved shapes with sharp leading edges in profile, and stepped and sloped trailing edges with similar stepped creases around trailing edges. This sun deck fairing joins an arch that spans across sun deck, forming a support for the upper arch (arch upon arch design) that carries two radar platforms extending forward. Both respective radar platforms in planform incorporate port and starboard delta-wings that extend past the upper arch at each radar level. Four dome antennas carried, two on the top of the upper arch, port and starboard, and two on wing shaped
