Secondary Transmission Service: Subscribers and Rates

SECONDARY TRANSMISSION SERVICE: SUBSCRIBERS AND RATES

In General: The information in space E should cover all categories of secondary transmission service of the cable system, that is, the retransmission of television and radio broadcasts by your system to subscribers. Give information about other services (including pay cable) in space F, not here. All the facts you state must be those existing on the last day of the accounting period (June 30 or December 31, as the case may be).

Number of Subscribers: Both blocks in space E call for the number of subscribers to the cable system, broken down by categories of secondary transmission service. In general, you can compute the number of subscribers in each category by counting the number of billings in that category (the number of persons or organizations charged separately for the particular service at the rate indicated—not the number of sets receiving service).

Rate: Give the standard rate charged for each category of service. Include both the amount of the charge and the unit in which it is generally billed. (Example: "\$20/mth"). Summarize any standard rate variations within a particular rate category, but do not include discounts allowed for advance payment.

Block 1: In the left-hand block in space E, the form lists the categories of secondary transmission service that cable systems most commonly provide to their subscribers. Give the number of subscribers and rate for each listed category that applies to your system. **Note:** Where an individual or organization is receiving service that falls under different categories, that person or entity should be counted as a subscriber in each applicable category. Example: a residential subscriber who pays extra for cable service to additional sets would be included in the count under "Service to the first set" and would be counted once again under "Service to additional set(s)."

Block 2: If your cable system has rate categories for secondary transmission service that are different from those printed in block 1 (for example, tiers of services that include one or more secondary transmissions), list them, together with the number of subscribers and rates, in the right-hand block. A two- or three-word description of the service is sufficient.

Services Other Than Secondary Transmissions: Rates

SERVICES OTHER THAN SECONDARY TRANSMISSIONS: RATES

In General: Space F calls for rate (not subscriber) information with respect to all your cable system's services that were not covered in space E, that is, those services that are not offered in combination with any secondary transmission service for a single fee. There are two exceptions: you do not need to give rate information concerning (1) services furnished at cost or (2) services or facilities furnished to nonsubscribers. Rate information should include both the amount of the charge and the unit in which it is usually billed. If any rates are charged on a variable per-program basis, enter only the letters "PP" in the rate column.

Block 1: Give the standard rate charged by the cable system for each of the applicable services listed.

Block 2: List any services that your cable system furnished or offered during the accounting period that were not listed in block 1 and for which a separate charge was made or established. List these other services in the form of a brief (two- or three-word) description and include the rate for each.

PRIMARY TRANSMITTERS: TELEVISION

G

Primary Transmitters: Television

In General: In space G, identify every television station (including translator stations and low power television stations) carried by your cable system during the accounting period, *except* (1) stations carried only on a part-time basis under FCC rules and regulations in effect on June 24, 1981, permitting the carriage of certain network programs [sections

76.59(d)(2) and (4), 76.61(e)(2) and (4), or 76.63 (referring to 76.61(e)(2) and (4))]; and (2) certain stations carried on a substitute program basis, as explained in the next paragraph.

Substitute Basis Stations: With respect to any distant stations carried by your cable system on a substitute program basis under specific FCC rules, regulations, or authorizations:

- Do not list the station here in space G—but do list it in space I (the Special Statement and Program Log)—if the station was carried only on a substitute basis.
- List the station here, and also in space I, if the station was carried both on a substitute basis and also on some other basis. For further information concerning substitute basis stations, see page (v) of the general instructions.

Column 1: List each station's call sign. *Do not* report origination program services such as HBO, ESPN, etc. Identify each multicast stream associated with a station according to its over-the-air designation. For example, report multistream "WETA-2" as the same on the form.

Column 2: Give the channel number the FCC assigned to the television station for broadcasting over the air in its community of license. For example, WRC is channel 4 in Washington, D.C.

Column 3: Indicate in each case whether the station is a network station, an independent station, or a noncommercial educational station, by entering the letter "N" (for network), "N-M" (for network multicast), "I" (for independent), "I-M" (for independent multicast), "E" (for noncommercial educational), or "E-M" (for noncommercial educational multicast). For the meaning of these terms, see page (iv) of the general instructions in the paper SA1-2 form.

Column 4: Give the location of each station. For U.S. stations, list the community to which the station is licensed by the FCC. For Mexican or Canadian stations, if any, give the name of the community with which the station is identified.

PRIMARY TRANSMITTERS: RADIO

In General: List every radio station carried on a separate and discrete basis and list those FM stations carried on an all-band basis whose signals were generally receivable by your cable system during the accounting period.

Н

Special Instructions Concerning All-Band FM Carriage: Under Copyright Office regulations, an FM signal is generally receivable if (1) it is carried by the system whenever it is received at the system's headend, and (2) it can be expected, on the basis of monitoring, to be received at the headend, with the system's FM antenna, during certain stated intervals. For detailed information about the Copyright Office regulations on this point, see page (v) of the general instructions in the. paper SA1-2 form.

Primary Transmitters: Radio

Column 1: Identify the call sign of each station carried.

Column 2: State whether the station is AM or FM.

Column 3: If the radio station's signal was electronically processed by the cable system as a separate and discrete signal, indicate this by placing a check mark in the "S/D" column.

Column 4: Give the station's location (the community to which the station is licensed by the FCC or, in the case of Mexican or Canadian stations, if any, the community with which the station is identified).

Privacy Act Notice: Section 111 of title 17 of the United States Code authorizes the Copyright Office to collect the personally identifying information (PII) requested on this form in order to process your statement of account. PII is any personal information that can be used to identify or trace an individual, such as name, address and telephone numbers. By providing PII, you are agreeing to the routine use of it to establish and maintain a public record, which includes appearing in the Office's public indexes and in search reports prepared for the public. The effect of not providing the PII requested is that it may delay processing of your statement of account and its placement in the completed record of statements of account, and it may affect the legal sufficiency of the fling, a determination that would be made by a court of law.
