

Name: Bill Black

Class of works: I am writing in support of Class #1 (Copy-Protected CDs):
Sound recordings released on compact disc ("CDs") that are protected by
technological protection measures that malfunction so as to prevent access on
certain playback devices.

Summary:

Disc name: The Lord of the Rings

I recently purchased a DVD copy of "The Lord of the Rings: The Fellowship of the Ring- Widescreen Edition" (ISBN 0780638379). The second disk of this two disk set is a special features disk and it will not play on my DVD player. This disk, which is not labeled as being "copy protected" or "region encoded", contains material like interviews with cast and crew, bios on all related parties and "behind the scenes" featurettes. All of this material is now unavailable to me because the disk does not function in my GoVideo brand DVD player.
