

Name: John McKay

Class of works: I am writing in support of Class #2 (DVD Region Coding):
Audiovisual works stored on Digital Versatile Disks ("DVDs") that are not
available in Region 1 DVD format and access to which is prevented by
technological measures.

Summary:

Disc name: many japanese anime films

If you go to a video store that rents japanese anime DVDs you have to buy
another DVD player on ebay or something that will play DVDs from that region.
Who are we helping by making it hard for me to watch some japanese movies!?
There is no legitimate reason to deny me that! It isn't like there is an
American version of the DVD available!
