

Jacob Sheridan
Private Individual

I support all exemptions for all classes:

1, 2, 3, 4, 5, 6A, 6B, 6C, 7A, 7B, 7C, 7D, 7E, 7F, 7G, 8, 9A, 9B, 9C, 9D, 10A, 10B

Specifically, for classes 3, 4, 5:

DMCA exemptions for "jailbreaking" mobile devices operating systems should be extended. Protections on the Apple iPhone or AT&T's Android phones give the carrier power to censor legal and useful software. Jailbreaking returns power to the person who bought the phone or tablet, without harming the manufacturer.

Please include reverse-engineering and jailbreaking of tablets, phones, and other electronic devices in the list of DMCA exemptions.

For classes 1, 2, 7, 8, 9:

Any technological barrier to educational, satire, or other fair uses does not promote the arts and sciences.

Thanks,
Jacob
