

Why I Jailbreak. Apple products Jailbreaking. So much customization and personalization are available. Far and beyond apples available features. Apple limits I devices so much Jailbreaking is freedom from that. You can make your i device however you want total to your liking. Apple is so boring. Apple limits the capabilities of the i device so much its ridiculous. With jailbreaking complete control. Notice its called Jailbreaking. Breaking free of jail. Im guessing if 1 million people in a weekend Jailbroke there devices it must be an amazing thing. Im am for Jailbreaking and 100% against making it illegal.
