

My name is Seth Vall

I jail broke **MY** iPhone 4s because I wanted freedom to go outside the boundaries apple puts in place on the iPhone. I paid for the device in my pocket. I'm fine with it voiding my warranty those are the risks. That's fair and reasonable but anything more than that is cruel this is America. If Apple doesn't want people to jail break the devices that they pay for don't make the devices in the first place.

Thank you for reading this,

Seth Vall

Please make the right and just decision by keeping jail breaking legal
