

Stephanie Hughes

Santa Rosa Beach, Florida

To Whom it May Concern:

I support jailbreaking of all devices, games consoles (3), personal computing devices (4), and all smart phones and tablets (5). I own 2 Apple devices, which I use on a daily basis for work as well as pleasure. I want to ensure that I will continue to have the option to jailbreak my iPhone and iPad if and when I see fit.

I am a nurse and the customizations I can make to my devices after jailbreaking increase my productivity and success in my job every day. I can track my performance, treatments used on patients, and the effects of those treatments, much faster with customizations that are not available on a device that is not jailbroken.

Lastly, I would like to say that as a consumer, I purchased a product, and that product is mine, I should be able to change it in any way I see fit, to get the maximum use and functionality out of that product customized to my needs.

Thank you for your time,

Stephanie Hughes
