

I am supporting the jailbreaking of smartphones and tablets.

I am a user, hobbyist and an independent researcher.

The following are devices that I would like to be able to jailbreak: iPhone, iPod, iPad

If I do not jailbreak I will lose all customization of my device, my main opportunity to learn more about code/programming, losing a source of money, and using Siri on my iPad 2, which Apple does not and will not offer.

Sincerely, Todd Leach
