

# Petition to Renew a Current Exemption Under 17 U.S.C. § 1201

## 8th Triennial Rulemaking

Please submit a separate petition for each current exemption for which renewal is sought.

**NOTE:** Use this form if you want to renew a current exemption without modification. If you are seeking to engage in activities not currently permitted by an existing exemption, including those that would require the expansion of a current exemption, you must submit a petition for a new exemption using the form available at <https://www.copyright.gov/1201/2021/new-petition.pdf>.

If you are seeking to expand a current exemption, we recommend that you submit both a petition to renew the current exemption without modification using this form, and, separately, a petition for a new exemption that identifies the current exemption, and addresses only those issues relevant to the proposed expansion of that exemption.

### **ITEM C. EXPLANATION OF NEED FOR RENEWAL**

Provide a brief explanation summarizing the continuing need and justification for renewing the exemption. The Office anticipates that petitioners may provide a paragraph or two detailing this information, but there is no page limit. While it is permissible to attach supporting documentary evidence as exhibits to this petition, it is not necessary. Below is a hypothetical example of the kind of explanation that the Office would regard as sufficient to support renewal of the unlocking exemption. The Office notes, however, that explanations can take many forms and may differ significantly based on the individual making the declaration and the exemption at issue.

As North America's largest technology trade association, CTA® IS the tech sector. Our members are the world's leading innovators – from startups to global brands – helping support more than 18 million American jobs. CTA owns and produces CES® – the most influential tech event in the world.

CTA's concern over the right to innovate has ranged from its support for Sony Corporation's right to market the first consumer VCR to current issues pertaining to online expression and commerce. In particular, CTA members invested in the aftermarket for vehicular technology development, repair, replacement, and safety technology products and services have a vital concern in those markets being free of artificial constraints on entry and competition. With more than 250,000,000 registered vehicles on the road today in the United States, it is essential that CTA member companies have access to vehicle software in order to develop and make available innovative solutions that support safe driving. Indeed, technology innovations developed in the aftermarket have in many cases resulted in significantly reducing driver fatalities.

## ITEM D. DECLARATION AND SIGNATURE

The declaration is a sworn statement made under penalty of perjury, and must be signed by one of the petitioners named above.

I declare under penalty of perjury under the laws of the United States of America that the following is true and correct:

1. Based on my own personal knowledge and experience, I have a good faith belief that but for the above-selected exemption's continuation during the next triennial period (October 2021 – October 2024), technological measures controlling access to relevant copyrighted works are likely to diminish the ability of relevant users to make noninfringing uses of these works, and such users are likely to rely upon the above-selected exemption during the next triennial period.
2. To the best of my knowledge, there has not been any material change in the facts, law, or other circumstances set forth in the prior rulemaking record (available at <https://www.copyright.gov/1201/2018>) that originally demonstrated the need for the above-selected exemption, such that renewal of the exemption would not be justified.
3. To the best of my knowledge, the explanation provided in Item C above is true and correct, and supports the above statements.
