Item C. Explanation of Need For Renewal

Provide a brief explanation summarizing the continuing need and justification for renewing the exemption. While it is permissible to attach supporting documentary evidence as exhibits to this petition, it is not necessary. Only petitions requesting renewal of exemptions granted in the **ninth triennial rulemaking** as codified in the *Code of Federal Regulations* may be considered under the streamlined renewal process.

NOTE: Examples of renewal petitions filed in the last rulemaking cycle can be found at copyright.gov/1201/2024/petitions/renewal. Informational guides explaining the 1201 rulemaking process and the streamlined renewal process can be found at copyright.gov/1201.

Based on regular consultation with those impacted by the exemption, as well as broad industry trends in commercial food preparation, both organizations believe that the need for this exemption continues to exist and have no reason to believe that the need will disappear within the next three-year period. The market for smart commercial kitchen appliances was valued at \$11.57B in 2026, and is projected to reach \$18.85B by 2031. Mordor Intelligence, SMART COMMERCIAL KITCHEN APPLIANCES MARKET SIZE & SHARE ANALYSIS - GROWTH TRENDS AND FORECAST (2026 - 2031), <https://www.mordorintelligence.com/industry-reports/smart-commercial-kitchen-appliances-marke> (last accessed 13 Aug 2026). Coverage of the North American Association of Food Equipment Manufacturers (NAFEM)'s annual trade show noted that "Equipment that lacks connectivity is increasingly viewed as outdated." Mesh Systems, "Insights from NAFEM 2025: Smarter, More Efficient Food Equipment," <https://meshsystems.com/insights-from-nafem-2025-smarter-more-efficient-food-equipment/> (5 Mar 2025).

Moreover, regulatory trends have spurred further adoption of electronics within food prep equipment. A new food traceability regulation (FSMA 204), which took effect earlier this year, requires electronic record-keeping within the production and distribution chain. Although retail-level establishments are generally exempt, it has spurred growth of "smart" food preparation equipment both inside and outside regulated segments of the industry.

Just as in 2024, device owners and independent repair technicians need this exemption to prevent manufacturers from leveraging copyright to command a monopoly over repair services.

Absent a renewed exemption, users will be adversely affected in seeking to make the noninfringing uses protected by this exemption in the last rulemaking. iFixit and PK therefore respectfully request renewal of the exemption for circumvention of computer programs to allow diagnosis, maintenance, or repair of retail-level commercial food preparation equipment.

Item D. Declaration and Signature

The declaration is a sworn statement made under penalty of perjury, and must be signed by one of the petitioners named above.

I declare under penalty of perjury under the laws of the United States of America that the following is true and correct:

- 1. Based on my own personal knowledge and experience, I have a good faith belief that but for the above-selected exemption’s continuation during the next triennial period (October 2027–October 2030), technological measures controlling access to relevant copyrighted works are likely to diminish the ability of relevant users to make noninfringing uses of these works, and such users are likely to rely upon the above-selected exemption during the next triennial period.
- 2. To the best of my knowledge, there has not been any material change in the facts, law, or other circumstances set forth in the prior rulemaking record (available at **copyright.gov/1201/2024**) that originally demonstrated the need for the above-selected exemption, such that renewal of the exemption would not be justified.
- 3. To the best of my knowledge, the explanation provided in Item C above is true and correct, and supports the above statements.

Name/Organization:

If the petitioner is an entity, this declaration must be signed by an individual at the organization having appropriate personal knowledge.
