- ☐ Computer programs for purpose of investigating potential infringement of free and open source computer programs

Item C. Explanation of Need For Renewal

Provide a brief explanation summarizing the continuing need and justification for renewing the exemption. While it is permissible to attach supporting documentary evidence as exhibits to this petition, it is not necessary. Only petitions requesting renewal of exemptions granted in the **ninth triennial rulemaking** as codified in the *Code of Federal Regulations* may be considered under the streamlined renewal process.

NOTE: Examples of renewal petitions filed in the last rulemaking cycle can be found at copyright.gov/1201/2024/petitions/renewal. Informational guides explaining the 1201 rulemaking process and the streamlined renewal process can be found at copyright.gov/1201.

ImageOne Medical Group, LLC services and repairs Siemens PET/CT, CT, and MRI systems for imaging centers, hospitals, and cancer treatment facilities throughout Florida, operating as a self-performing, engineer-owned independent service organization. Password-protected diagnostic software and restricted access to error logs and service data files routinely interfere with timely diagnosis and repair — for example, recurring fault clusters in power/electrical systems, gantry/table leveling, and camera/QC subsystems on PET/CT equipment require direct access to software-generated error logs to accurately isolate the failure and complete repair without unnecessary downtime. Because our clients include cancer centers where imaging delays directly affect patient care, continued access to device software, diagnostic information, and error logs remains necessary for ImageOne to perform timely, safe, and effective diagnosis, maintenance, and repair. ImageOne therefore requests renewal of the current exemption for computer programs that control medical devices or systems, and related data files, when access is necessary for diagnosis, maintenance, or repair.

Item D. Declaration and Signature

The declaration is a sworn statement made under penalty of perjury, and must be signed by one of the petitioners named above.

I declare under penalty of perjury under the laws of the United States of America that the following is true and correct:

1. Based on my own personal knowledge and experience, I have a good faith belief that but for the above-selected exemption's continuation during the next triennial period (October 2027–October 2030), technological measures controlling access to relevant copyrighted works are likely to diminish the ability of relevant users to make noninfringing uses of these works, and such users are likely to rely upon the above-selected exemption during the next triennial period.
2. To the best of my knowledge, there has not been any material change in the facts, law, or other circumstances set forth in the prior rulemaking record (available at copyright.gov/1201/2024) that originally demonstrated the need for the above-selected exemption, such that renewal of the exemption would not be justified.
3. To the best of my knowledge, the explanation provided in Item C above is true and correct, and supports the above statements.

Name/Organization:

If the petitioner is an entity, this declaration must be signed by an individual at the organization having appropriate personal knowledge.
