

How to Make Statutory License Royalty Payments by Wire

This circular contains instructions on how to originate a wire transfer through a financial institution to make statutory license royalty payments.¹

Under the copyright statutory licenses, cable systems, satellite carriers, and digital audio recording technology (DART) manufacturers and importers must pay royalty fees using **electronic funds transfer** (EFT). Cable systems and satellite carriers are also required to pay a **filing fee**. The EFT process benefits both the remitter and the Copyright Office as the agency responsible for collecting and distributing royalty fees. EFTs can be transmitted either as Automated Clearing House (ACH) credits or as Fedwire (wire) transactions, depending on how a transfer is arranged through a financial institution. Alternatively, they can be transmitted as ACH debits using the U.S. Treasury Department's web-based remittance system, *Pay.gov*.

For other options, see *How to Make Statutory License Royalty Payments by ACH Credit* (**Circular 74B**), or *How to Make Statutory License Royalty Payments Using Pay.gov* (**Circular 74C**).

Procedure to Pay by Wire

- Contact your financial institution to determine if it can transfer funds by the Fedwire Deposit System.
- Settlement of the wire must occur by the appropriate filing deadline. Settlement generally occurs on the same banking day the wire is transmitted. Check with your financial institution on timing to avoid interest payments.
- Provide the bank with the specific instructions below so that a funds transfer deposit message can be transmitted to the Treasury Department:

Receiver ABA number: 021030004

Receiver name: TREAS NYC

Beneficiary name: U.S. Copyright Office

Payment-Related Instructions

The accounting period; the number of statements of account; the type of royalty payment (cable, satellite, or DART); and the legal name of the owner of the cable system (and first community and state served from one statement of account), the satellite carrier, or the DART manufacturer or importer covered by the electronic transfer must be provided here.

Example: APC-952/NSA-00001/TOF-Cable/LNR-ABC CABLE CO (ALBANY NY)/

A description of subfields and their order for payment-related information follows.

Subfield Description

- *APC*: A three-digit subfield indicating the accounting period covered by the electronic transfer. The second accounting period for the year is indicated by “102.” If the payment covers multiple accounting periods use “map” as the subfield and indicate on the cover letter the accounting period for each statement.
- *NSA*: A five-digit subfield with leading zeros representing the number of statements of account the transfer covers, “00001” for 1 statement and “00095” for 95 statements.
- *TOF*: Indicates the type of royalty fee payment (cable, satellite, or DART).
- *LNR*: The last subfield is for the legal name of the owner of the cable system or satellite carrier or the DART manufacturer or importer covered by the electronic transfer payment and one community served if a cable system.

NOTE: All subfields in the payment-related information area must end with a “/”. The remitter should inform the financial institution that transmits the ACH to ensure that all information is provided in the prescribed format. Failure to provide the information in the prescribed format may cause a delay of the transfer.
