To Whom It May Concern:
Copyright Office
Regarding proposed fee increases.

I wish to protest the proposed fee increases for filing copyright for photographs. There are many photographers who are struggling at the moment, myself included, and these fees increase will make it hard for many of us to copyright our work.

I have recently begun a lot of test shooting and times are so tight that I already am not filing copyright claims due to the time it takes to file and the fees involved. As soon as business picks up I hope to remedy this and copyright all my recent work but your fee increases will make that harder for me and for a lot of independent artists.

Please do not increase fees on copyright registration.

Sincerely,

Jonothan Woodward
