37 CFR Part 263

[DOCKET NO. 2002–1 CARP DTRA3]

digital performance right in sound recordings and ephemeral recordings

agency: copyright office, library of congress.

action: notice of proposed rulemaking.

summary: the copyright office of the library of congress is requesting comment on proposed regulations that set rates and terms for the use of sound recordings in eligible nonsubscription transmissions made by noncommercial licensees, and for the making of related ephemeral recordings. the rates and terms are for the 2003 and 2004 statutory licensing period.

dates: comments are due no later than september 22, 2003.

addresses: an original and five copies of any comment shall be delivered by hand to: office of the general counsel, james madison memorial building, room LM–403, first and independence avenue, se., washington, DC 20559–6000; or mailed to: copyright arbitration royalty panel (CARP), P.O. Box 70977, southwest station, Washington, DC 20024–0977.

For further information contact: david O. carson, general counsel, or Tanya M. sandros, senior attorney, copyright arbitration royalty panel (CARP), P.O. Box 70977, southwest station, washington, DC 20024. telephone: (202) 707–8380; telefax: (202) 252–3423.

Supplementary information: since 1995, copyright owners of sound recordings have had the exclusive right to perform their works publicly by means of a digital audio transmission, subject to certain limitations. 17 U.S.C. 106(6). Among the limitations on the performance right was the creation of a new compulsory license for nonexempt, noninteractive digital subscription transmissions. 17 U.S.C. 114. Section 114 was later amended with the passage of the digital millennium copyright act of 1998 ("DMCA"), Public Law 105–304, to cover additional digital audio transmissions, including services making eligible nonsubscription transmissions. the DMCA also created a new statutory license to provide for the making of certain ephemeral phonerecords that facilitate the making of digital audio transmissions pursuant to the section 114 license. See 17 U.S.C. 112(e).

Rates and terms for use of sound recordings pursuant to these licenses by eligible nonsubscription services and by business-to-business establishment services were published in the federal register on July 8, 2002, after a full hearing before a Copyright Arbitration Royalty Panel ("CARP"), but these rates only applied to those transmissions made through December 31, 2002. See 67 FR 45239 (July 8, 2002).

In accordance with section 114(f)(2)(C)(i)(II), the Copyright Office initiated a new rate proceeding in January 2002 to set rates and terms for the current license period, January 1, 2003 through December 31, 2004. The first step in the rate adjustment process is the announcement of a voluntary six-month negotiation period. See 67 FR 4472 (January 30, 2002). Although no agreements were reached during the early stages of this proceeding, copyright owners and performers did ultimately reach an agreement with certain licensees and the proposed settlement was published in the Federal Register on May 20, 2003. 68 FR 27506 (May 20, 2003). this agreement, however, did not make any special provisions for noncommercial entities who operate under the same statutory licenses, because noncommercial webcasters were involved in separate rate negotiations to establish an alternative rate structure to the one that would be set in accordance with the procedures set forth in 17 U.S.C. 112(e) and 114(f). These negotiations were conducted in accordance with the Small Webcaster Settlement Act of 2002 ("SWSA"), Public Law 107–321, 116 Stat. 2780.

The SWSA was passed in 2002 to address certain concerns of small webcasters with respect to the rates announced on July 8, 2002, and the CARP process which established those rates. Basically, it gave small commercial webcasters and noncommercial webcasters another opportunity to negotiate a different and separate rate schedule applicable to their use of sound recordings in digital transmissions for the period through 2004. The negotiations for these alternative agreements were conducted sequentially. SoundExchange, an unincorporated division of the
If no comments are received, the regulations shall become final upon publication of a final rule and shall cover the period from January 1, 2003, to December 31, 2004.

[DFARS Case 2002–D015]

Defense Federal Acquisition Regulation Supplement: Production Surveillance and Reporting

AGENCY: Department of Defense (DoD).
ACTION: Proposed rule with request for comments.

SUMMARY: DoD is proposing to amend the Defense Federal Acquisition Regulation Supplement (DFARS) to eliminate requirements for contract administration offices to perform production surveillance on contractors that have only Criticality Designator C (low-urgency) contracts. This change will permit contract administration offices to devote more resources to critical and high-risk contracts.

DATES: DoD will consider all comments received by October 20, 2003.

ADDRESSES: Respondents may submit comments directly on the World Wide Web at http://emissary.acq.osd.mil/dar/dfars.nsf/pubcomm. As an alternative, respondents may e-mail comments to: dfars@osd.mil. Please cite DFARS Case 2002–D015 in the subject line of e-mailed comments.

Respondents that cannot submit comments using either of the above methods may submit comments to: Defense Acquisition Regulations Council, Attn: Mr. Steven Cohen, OUSD(AT&L)/DPAP(DAR), IMD 3C132, 3062 Defense Pentagon, Washington, DC 20301–3062; facsimile (703) 602–0350. Please cite DFARS Case 2002–D015.

FOR FURTHER INFORMATION CONTACT: Mr. Steven Cohen, (703) 602–0293.

SUPPLEMENTARY INFORMATION:

A. Background

DFARS 242.1104 presently requires the cognizant contract administration office to conduct a periodic risk assessment of each contractor to determine the degree of production surveillance needed for contracts awarded to that contractor, and to develop a production surveillance plan based on the risk level determined during the risk assessment. This proposed rule revises DFARS 242.1104 to eliminate requirements for production surveillance on contractors that have only Criticality Designator C (low-urgency) contracts, and for monitoring of progress on any Criticality Designator C contract, unless production surveillance or contract monitoring is specifically requested by the contracting officer. This change will enable contract administration offices to use production surveillance resources in a more effective manner.

This rule was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

B. Regulatory Flexibility Act

DoD does not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., because the DFARS changes in this rule primarily affect the allocation of Government resources to production surveillance functions. Therefore, DoD has not performed an initial regulatory flexibility analysis. DoD invites comments from small businesses and other interested parties. DoD also will consider comments from small entities concerning the affected DFARS subpart in accordance with 5 U.S.C. 610. Such comments should be submitted separately and should cite DFARS Case 2002–D015.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the rule does not impose any information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, et seq.
