PII is any personal information that can be used to identify or trace an individual, such as name, address and telephone numbers. **ACCOUNTING PERIOD: 2020/2** FORM SA3. PAGE 2 LEGAL NAME OF OWNER OF CABLE SYSTEM: SYSTEM ID# Name 62136 **Eagle Communications Inc.** SECONDARY TRANSMISSION SERVICE: SUBSCRIBERS AND RATES Ε In General: The information in space E should cover all categories of secondary transmission service of the cable system, that is, the retransmission of television and radio broadcasts by your system to subscribers. Give information Secondary about other services (including pay cable) in space F, not here. All the facts you state must be those existing on the Transmission last day of the accounting period (June 30 or December 31, as the case may be). Service: Sub-Number of Subscribers: Both blocks in space E call for the number of subscribers to the cable system, broken scribers and down by categories of secondary transmission service. In general, you can compute the number of subscribers in Rates each category by counting the number of billings in that category (the number of persons or organizations charged separately for the particular service at the rate indicated—not the number of sets receiving service). Rate: Give the standard rate charged for each category of service. Include both the amount of the charge and the unit in which it is generally billed. (Example: "\$20/mth"). Summarize any standard rate variations within a particular rate category, but do not include discounts allowed for advance payment. Block 1: In the left-hand block in space E, the form lists the categories of secondary transmission service that cable systems most commonly provide to their subscribers. Give the number of subscribers and rate for each listed category that applies to your system. Note: Where an individual or organization is receiving service that falls under different categories, that person or entity should be counted as a subscriber in each applicable category. Example: a residential subscriber who pays extra for cable service to additional sets would be included in the count under "Service to the first set" and would be counted once again under "Service to additional set(s)." Block 2: If your cable system has rate categories for secondary transmission service that are different from those printed in block 1 (for example, tiers of services that include one or more secondary transmissions), list them, together with the number of subscribers and rates, in the right-hand block. A two- or three-word description of the service is sufficient. BLOCK 1 BLOCK 2 CATEGORY OF SERVICE SUBSCRIBERS RATE CATEGORY OF SERVICE SUBSCRIBERS RATE Residential: 67 · Service to first set 27.95 · Service to additional set(s) • FM radio (if separate rate) Motel, hotel 27.95 Commercial 5 27.95 Converter Residential Non-residential SERVICES OTHER THAN SECONDARY TRANSMISSIONS: RATES In General: Space F calls for rate (not subscriber) information with respect to all your cable system's services that were F not covered in space E, that is, those services that are not offered in combination with any secondary transmission service for a single fee. There are two exceptions: you do not need to give rate information concerning (1) services Services furnished at cost or (2) services or facilities furnished to nonsubscribers. Rate information should include both the Other Than amount of the charge and the unit in which it is usually billed. If any rates are charged on a variable per-program basis, Secondary enter only the letters "PP" in the rate column. **Block 1:** Give the standard rate charged by the cable system for each of the applicable services listed. Transmissions: Block 2: List any services that your cable system furnished or offered during the accounting period that were not Rates listed in block 1 and for which a separate charge was made or established. List these other services in the form of a brief (two- or three-word) description and include the rate for each. П
