This is the total number of DSEs used to compute the surcharge.</p> <p><b>Step 4:</b> Compute the surcharge for each subscriber group using the formula outlined in block D, section 3 or 4 of part 7 of this schedule. In making this computation, use gross receipts figures applicable to the particular group. You do not need to show your actual calculations on this form.</p> |                                |                                 |                                                                                 |                                                                                 |                                                                                    |                                                                                    |                                                                                                                                                                                                          |                                                                                                                                                                                                          |                                                                                                                |                                                                                                                 |

This is the total number of DSEs used to compute the surcharge.</p> <p><b>Step 4:</b> Compute the surcharge for each subscriber group using the formula outlined in block D, section 3 or 4 of part 7 of this schedule. In making this computation, use gross receipts figures applicable to the particular group. You do not need to show your actual calculations on this form.</p> <table border="1" style="width: 100%; border-collapse: collapse; margin-top: 10px;"><thead><tr><th style="width: 50%; text-align: center;">ONE HUNDRED FIRST SUBSCRIBER GROUP</th><th style="width: 50%; text-align: center;">ONE HUNDRED SECOND SUBSCRIBER GROUP</th></tr></thead><tbody><tr><td style="padding: 5px;">Line 1: Enter the VHF DSEs . . . . . <div style="border: 1px solid black; width: 100px; height: 15px; background-color: yellow;"></div></td><td style="padding: 5px;">Line 1: Enter the VHF DSEs . . . . . <div style="border: 1px solid black; width: 100px; height: 15px; background-color: yellow;"></div></td></tr><tr><td style="padding: 5px;">Line 2: Enter the Exempt DSEs . . . . . <div style="border: 1px solid black; width: 100px; height: 15px; background-color: yellow;"></div></td><td style="padding: 5px;">Line 2: Enter the Exempt DSEs . . . . . <div style="border: 1px solid black; width: 100px; height: 15px; background-color: yellow;"></div></td></tr><tr><td style="padding: 5px;">Line 3: Subtract line 2 from line 1 and enter here.
