

Dear Copyright Office

It is imperative that orphan works NOT be allowed to simply go forward as unidentified and then let ANYONE publish or copy it without giving back to the original owner/publisher etc.

I have worked ten years to make writing a career and a way to pay back to society. Please help keep that a viable option by NOT expanding the FAIR USE law to let folk take things that are out of print, or from a blog etc become FAIR USE and not give to the original worker/writer.

Thanks for your consideration. As a member of THE NATIONAL WRITERS Union we are watching carefully.
