

The moment my artistic work is no longer protected by copyright laws, I will stop doing business with all US businesses.

That is my own customers, but also public website that are available for the promotion of my work.

Below a list of a few of them:

- Google+
- Facebook
- Flickr
- Model Mayhem
- And many more...

I will also block any American IP address from accessing my websites.

Be aware, I will not be the only one doing this. You can guarantee, entire nations will block US IP addresses.
