Comment:

This is what's happen when unconstititutional laws are passed: confusion, anarchie, victimization of US Citizen civil disobedience lost of respect for the Justice system and for the government in general.

This is bringing down our nation while some other countries more open minded prosper.

An Unconstititutional Law such as the DMCA is null and non enforcable.

This is a reminder that trying to enforce a unconstititutional law is a crime.

We personally do not try to enforce or obey the DMCA and we will always refuse to do so !
